University for Peace est. by the United Nations

30 January 2024

The European Center for Peace and Development University for Peace established by the United Nations (ECPD), Belgrade, in the framework of the ECPD International Program of Transfer of Knowledge System in the field of health sciences, in cooperation with Long Island University (USA), VAMK University (Finland), University of Applied Sciences Niederrhein (Germany), Istituto Superiore di Sanità (Italy) and South-Eastern Europe Health Network (SEEHN), organizes

ECPD INTERNATIONAL SPECIALIST SEMINAR

DIGITAL MEDICINE

(Belgrade, 17–18 May 2024)

ECPD UN University for Peace organizes this Seminar with the aim to focus on a new direction in modern medical practice, called **Digital Medicine, Digital Health or e-Health**. Digital medicine refers to the use of information technologies, services and processes to provide health services and improve the health and quality of life of the population. In a narrower sense, digital medicine implies clinical practice supported by the application of information technology, the Internet, mobile phones and digital communication channels in order to improve the provision of health services. In a broader sense, it includes the construction of digital hospitals, digitalization of hospital administration, construction of a regional medical and health network, remote diagnostic and treatment techniques that include modern information technology.

Personalized health service, continuous monitoring of the patient's health condition, constant doctor-patient communication fundamentally changes the current concepts and relations in health care, yet the development of this dynamic process has only just begun. In line with that, education in the field of digital medicine is an imperative not only for the generations to come, but also for all health care providers today.

ECPD

The seminar is internationally and nationally accredited. By the Health Council of Serbia the program is accredited as an international seminar of the 1st category with 14 points for lecturers and 7 points for participants. The accreditation number of the Seminar is A-1-915/23.
