Unless otherwise specified, there is 20 minutes for the main presentation with 10 minutes for discussion. A short case history with one or two multiple choice questions should be used to link the lecture with the interactive discussion. PowerPoint presentations should be as simple as possible and used to make key points easy to understand. Sharing of key references and background materials with the students is encouraged. Please avoid screenshots of dense text that are so detailed that they are impossible to read.

For lectures in English: Consecutive translation provided.
